Who we are ...

We are an established distributor of tools and equipment and have been serving the construction industry since 1994.

During that time our customer base has grown and now includes a wide range of small, medium and large companies.

We mainly operate within a 50 mile radius of our base in Salford and offer a same/next day free delivery service with our own vehicles, as well as a trade counter for collections.

Our greatest strength is undoubtedly the level of service which we provide for all our customers, with special attention being paid to prompt delivery and our competitive pricing policy.
